Bogong Campus provides programs for Years 7-12 students from Government Schools throughout Victoria and is situated in Bogong Village, North-East Victoria. This is located 15 km from Mount Beauty and 15 km from both the Falls Creek ski resort and the Bogong High Plains. Bogong Village is surrounded by the Alpine National Park. Bogong is 380 km from Melbourne and takes around 6 hours to get there by bus.

Respectful Relationships

Respectful Relationships - Statement of Commitment

- We commit to action that promotes gender equity & respectful relationships.
- We will model respectful relationships between peers and all members of the school community.
- We will speak out about sexism, gender inequity and gender stereotypes.
- We will provide a safe, inclusive and supportive environment.
- We will provide a structural and cultural environment that promotes gender equity.

COVID 19 Information and Policy

A copy of the school's COVID 19 policy and subsequent protocols is available on our website at <http://www.outdoorschool.vic.edu.au/>

Key to this policy is that:

- Students or staff that are not well, or display Covid like signs/symptoms should not attend Bogong.
- Students or staff that have tested positive to Covid **within the 5 days before the program commencing** must not attend Bogong.
- Students or staff that begin to display Covid like signs or symptoms whilst on program will be sent home.
- In the case of any of the above for a student, the parents/guardians will be contacted to collect their child as soon as possible on that day and take them home. **As a parent/guardian please make arrangements to ensure you can collect your child at short notice if needed.**

Important Parent Information

The program will contain activities and events which are different from those experienced at school. Qualified and experienced teachers are responsible for the supervision and teaching of all adventure activities and necessary precautions are taken to minimise the possibility of injury.

Parents/guardians should understand however, that all the listed activities do carry risk of physical injury and that accidents can, and do occur. However, Outdoor School has an active and ongoing risk management program whose objective is to provide a safe and effective environment for students and staff.

Activities may include bushwalking, climbing/abseiling, mountain biking, orienteering/roving, canoeing, pioneering, high ropes, creek walking, and the sensory trail course. Many of the activities are conducted in remote locations subject to severe weather and other natural hazards. In the event of injury or illness, communications or emergency services may be limited or not available for periods of time. This may result in delays in injured/sick group members accessing more definitive care. It is important that students are appropriately insured for medical treatment as the Outdoor School, being a State Government School of Victoria, does not have any insurance to this effect.

Inclusion at Bogong

Outdoor School is committed to celebrating diversity and has a core belief that all students have a right to be a part of our learning programs. For this to happen we understand that individual students may sometimes need adjustments be made to the learning tasks and the program, something we are committed to doing. Furthermore, there will be times when additional supports will need to be put in place to ensure successful access to the learning and we will work with students, home schools and their families to do this. Please talk to your Bogong staff member about inclusion of your child.

Tips to help prepare your child

✔ **Support Bogong's no phone policy** and talk to your child about the benefits of a break from phones and some strategies for coping without it. (For eg a break from social media)

✔ **Ask your child if they have any worries** about the program. Reassure them that it is okay to have worries.

Talk with them about some strategies to help, possible strategies are:

- Thinking about who they can talk to while on camp (a friend or a teacher that is going).
- Talking about the advantages of going on camp
- Knowing that whilst on camp they can talk to home if it is essential, using a Bogong phone
- To know that the Bogong teachers are experienced in helping students through worries and difficulties
- Making a plan of what they can do to relax and take their mind off worries (perhaps bringing a special blanket, a book, a football, a photo, a fidget toy or another relaxation tool).

✔ **Encourage your child to aim for completing the whole program.**

✔ **Share any important information with Bogong prior to the program that you think will be helpful to support your child** (eg medical, welfare, emotional, or learning information).

✔ Help your child to pack and source the appropriate clothing from the list.

✔ **Be in touch with Bogong if you have any questions or concerns that your child's home school cannot answer. Especially if you think your child would benefit from Bogong putting some extra support in place for them.**

Adventure Activities

Rockclimbing & Abseiling introduction – An introduction to the techniques and skills of climbing and abseiling conducted on a number of artificial rock walls in and around the Campus. Students may be involved in belaying other students under active supervision and after training and assessment by teachers.

Rockclimbing & Abseiling extension - Students are taken to a site on the Bogong High Plains where they have the opportunity to extend the climbing and abseiling they have done at the Campus.

Orienteering – Students are introduced to navigation using a map and compass. They progress from a simple course around the Campus to a more complex and challenging set of courses in the forest area around Bogong Village. Please Note: due to the nature of the activity, there are times when the students are not directly supervised by a teacher.

Rogaining - This is similar to orienteering. Students team up for a four to five-hour challenge to test themselves within a defined area on the Bogong High Plains. Students are briefed on safety and lost procedures. This allows students to take on leadership, initiative, teamwork and responsibility in an alpine setting. Please Note: due to the nature of the activity, there are times when the students are not directly supervised by a teacher.

Canoeing - Canoeing is conducted on Lake Guy, at Bogong Village. The students are introduced to the basic methods of flat water canoeing to enable them to explore the lake environment.

Creek Walking - Students follow the Rocky Valley river bed upstream moving from rock to rock, wading and walking along the river bank.

High Ropes - Bogong has a well-developed High Ropes Course constructed in a forest setting adjacent to the Campus. This course was constructed after the 2003 bushfires and comprises 12 activities.

Mountain Biking - Some groups will spend time riding flat open aqueduct trails specifically in the Bogong High Plains while others may take on more advanced single-track mountain biking within Falls Creek or down in the Kiewa Valley. An instruction, practice session and bike check are conducted prior to leaving the campus, with additional instruction taking place on site.

Pioneering – In this initiative activity session students are taught a number of knots and lashings that allow their group to solve the problem of crossing a low creek by constructing a simple bridge.

Initiative Activities - These activities are many and varied and develop initiative, trust, co-operation, communication and self-confidence.

Environmental Studies - (Bogong Nights & Bogong's Backyard)

These sessions look at the ecology of the area and incorporate presentations and student practical work on the land use issues, history, flora, fauna, climate, water and geology associated with the Alpine environment. A blindfolded 'sense trail' in the bush is also used to introduce environmental concepts.

Overnight Bushwalk - Bushwalks are normally conducted on the Bogong High Plains. Students hike in groups of 12, accompanied by one Bogong Teacher and one Visiting Teacher. Walks can visit a number of historic cattleman's huts and environmentally sensitive sites on route. Students cook for themselves using lightweight stoves under supervision. Bushwalks are preceded by hike preparation sessions where students discuss the bushwalk and are given information, training, equipment, and food required for a safe and enjoyable experience.
