# Before Coming You Must Organise

- Asthmatic students **must** complete the attached Asthma Update Form and supply their Asthma Action Plan
- Students with allergies **must** complete the attached Allergic Reactions Action Plan.
- Students with anaphylaxis **must** complete the Anaphylaxis Action Plan.

## Parent/Student Booklet

Send this home to parents/guardians for parents/guardians and students to read. A copy of this can be found at [www.outdoorschool.vic.edu.au](http://www.outdoorschool.vic.edu.au) Discuss the Code of Cooperation, and clothing/equipment list with students.

## Transport

Organise transport to and from Bogong. We encourage you to share transport with other schools visiting that same week to reduce costs. To optimise learning and allow safe travel time we would like schools to arrive at the times agreed in the 'Bogong Offer'. These times are important to Bogong for staffing and planning purposes. Bogong will give you recommended travel times from your school. We recommend Falls Creek Coach Service for their reliability and experience with times for getting to Bogong although you may have a preferred company.

## Entering the Data

**The student and visiting staff details from the consent and medical forms must be entered via our online portal.**

You will receive automated emails to remind you when to complete these tasks but you may do this earlier if suitable for you.

1. Use this link <http://tinyurl.com/y8266pzu> to access the Cumulus portal.
2. If you have accessed this site before, log in as you have previously done.
3. If you have not been to this site before create a new account with your edumail address (must be edumail) and a password.
4. Once there you must enter the student's names, their consent and medical details, as well as your visiting teacher's names and medical details.

**A copy of the forms must then be sent on to Bogong via scan/email or fax two weeks prior to the program running.**

## Reserve List

Organise a reserve list of students in case of last minute cancellations. If unable to obtain a full quota of students, we suggest filling these places with students from other year levels. If sharing with another school, they may be able to help out.

## ***Allocating Learning Groups & Room Pairs***

Log on to the Cumulus portal as indicated above and **allocate student room pairs and learning groups at least 3 weeks prior to your program starting date**. Any specific details regarding any student learning/behaviour that will assist us please let us know.

Bogong Campus staff suggest that students be allowed to select their own room pairs as it is important to put students into room pairs that they are comfortable with.

We work in groups of 12 students (i.e. usually 4 groups of 12 students).

Students that you allocate into Groups 1, 2, 3 & 4 stay in that activity group for the duration of the program and work together throughout all activities.

We mix girls and boys together in activity groups of 12, and if there are multiple schools, we mix students from each of the schools e.g. 6 students from one school and 6 from another school per group of 12.

### ***Attending with another school:***

If you are sharing a program with another school, please allocate your students evenly across the number of groups in the portal. Also consider a gender balance within these groups.

### ***For schools maintaining separate groups to other schools (usually 2 groups):***

Students are to be placed in room pairs, then allocated evenly across the 2 groups of 12.

As previously indicated above your school is required to enter this data via the Cumulus online portal. See the sub-heading 'Entering the Data' on page 2.

*In drawing up this list please consider the following:*

- If the visiting teacher wishes to be in a particular group, please indicate this on the list.
- If you are aware of students who should be separated please indicate this in the comments section on the list.

**Please complete this list at least three weeks prior to the start of your program**

## **Important Teacher Information**

The program will contain activities and events which are different from those experienced at school. Qualified and experienced teachers are responsible for the supervision and teaching of all adventure activities and necessary precautions are taken to minimise the possibility of injury.

Teachers/parents/guardians should understand however, that all the listed activities do carry risk of physical injury and that accidents can, and do occur. However, Outdoor School Bogong has an active and ongoing risk management program whose objective is to provide a safe and effective environment for everyone.

Activities may include bushwalking, climbing/abseiling, mountain biking, orienteering/rogaining, canoeing, pioneering, high ropes, creek walking, and the sensory trail course. Many of the activities are conducted in remote locations subject to severe weather and other natural hazards. In the event of injury or illness, communications or emergency services may be limited or not available for periods of time. This may result in delays in injured/sick group members accessing more definitive care. It is important that students are appropriately insured for medical treatment as Outdoor School - Bogong, being a State Government School of Victoria, does not have any insurance to this effect.

# When You Are At Bogong

## ***Physical Fitness for the Program***

The activities undertaken can be strenuous and it is strongly advised that students and visiting teachers undertake a **planned comprehensive fitness program** as part of their preparation for their time at Bogong.

## ***Student Expectations***

The following should be made clear to students before their departure from school:

- Smoking, non-prescribed drugs and alcohol are strictly prohibited!
- Students will follow a tight program leaving them little free time.

Bogong is a school operated by the (DET), has a set curriculum and **is not a holiday centre**.

## ***Accommodation***

Students and visiting teachers are accommodated in a two-story Lodge. Twenty-eight students (two per room) and two visiting teachers (VTs- a single room each) can be accommodated on each floor. Student rooms are furnished with two single beds, mattresses (Bogong will supply the bottom sheet – students are to bring a sleeping bag & pillow). All buildings facilities include modern bathrooms, indoor and outdoor recreation areas, drying rooms and a dining room. Facilities (i.e. wheelchair ramps and specialised bathrooms/toilets) are provided for students with physical disabilities. Refer to the Outdoor School website for more information.

## ***Catering***

The Campus employs a chef and assistant who provide all meals and specifically cater for the tastes and appetites of teenagers. For catering purposes, the actual numbers of students and staff from each school needs to be confirmed on the Cumulus online portal two weeks in advance with any special dietary requirements.

## ***Transport***

Schools are required to arrange for return transport between the school and Bogong. Outdoor School recommends Falls Creek Coach Service for their reliability and experience with times for getting to Bogong. Local transport during the program may be either self-drive using school vehicles, or by coach. The High Plains Road from Mt Beauty to Falls Creek is declared hazardous from the Queen's birthday weekend until the end of the snow season and requires a special bus licence to drive on it.

## ***Sick Students***

Should a student(s) be unable to take part in the program, then a visiting teacher may be required to supervise them at the Campus. Bogong has a sick bay for dealing with first aid needs.

## ***Telephone***

Inward phone calls are received between 8.30am and 4.30pm. Outgoing calls may be made any convenient time by staff or students if needed. Students are discouraged from calling or receiving calls during the program. Bogong has an answering machine at times when the office is unattended. An after-hours phone number for emergencies is provided on the answering machine. Bogong teachers have phones for safety during program.

# Adventure Activities

Below is a brief description of some activities that maybe in your program. If you wish to view students participating in activities, please refer to our website. Many of the activities are conducted in remote and rugged locations and in environments subject to severe weather and other natural hazards. In the event of injury or illness, access to communications or emergency services may be limited or not available for significant periods of time. This may result in delays in injured or sick group members accessing more definitive care.

**Rock-climbing & Abseiling introduction** – An introduction to the techniques and skills of climbing and abseiling conducted on a number of artificial rock walls in and around the Bogong Campus. Students may be involved in belaying other students under active supervision and after training and assessment by teachers.

**Rock-climbing & Abseiling extension** - Students are taken to a site on the Bogong High Plains where they have the opportunity to extend the climbing and abseiling they have done at the Campus. This is normally done as a half day activity combined with a half day of bike riding.

**Orienteering** – Students are introduced to Orienteering (navigation using a map and compass). They progress from a simple course around the Campus to a more complex and challenging set of courses in the forest area around Bogong Village. Please Note: due to the nature of the activity, there are times when the students are not directly supervised by a teacher.

**Rogaining** - This is similar to orienteering. Students team up for a four to five-hour challenge to test themselves within a defined area on the Bogong High Plains. Students are briefed on safety and lost procedures, and carry radios monitored by teachers. This allows students to take on leadership, initiative, teamwork and responsibility in an alpine setting. Please Note: due to the nature of the activity, there are times when the students are not directly supervised by a teacher.

**Canoeing** - Canoeing is conducted on Lake Guy, which adjoins the Campus. The students are introduced to the basic methods of flat water canoeing to enable them to explore the lake environment.

**White Water Rafting** - This activity involves students paddling inflatable rafts on white water rapids, on rivers up to a grade 3 (moderate) standard. Students may be in a boat with an adult guide, or in a 'self-guided' boat, supervised by guides in support craft, depending on river conditions and educational goals. Rivers accessed include the Mitta Mitta and Snowy River, and some sections of these rivers are remote and difficult to access via vehicle or on foot.

**Creek Walking** - This involves students following a river bed upstream by moving from rock to rock, wading and walking along the river bank. It is done at Bogong Village in the Rocky Valley stream. It has ready access to areas above the normal flood line over the length of the activity.

**High Ropes** - Bogong has a well-developed High Ropes Course constructed in a forest setting adjacent to the Campus. A new course was constructed after the 2003 bushfires and comprises 12 activities.

**Bike Riding** - Bike riding is conducted on the Bogong High Plains using existing trails. It provides the opportunity for students to enjoy the spectacular scenery and environment of the high country. Instruction, practice session and bike check is conducted prior to the tour.

**Pioneering** - Pioneering is an initiative activity session where students are taught a number of knots and lashings that allow their group to solve the problem of crossing a low creek by constructing a simple bridge.

**Initiative Activities** - These activities develop initiative, trust, co-operation, group participation and self-confidence.

**Environmental Studies** - (Bogong Nights & Bogong's Backyard)

These sessions look at the ecology of the area and incorporate presentations and student practical work on the land use issues, history, flora, fauna, climate, water and geology associated with the Alpine environment. A blindfolded 'sense trail' in the bush is also used to introduce environmental concepts.

**Overnight Bushwalk** - Bushwalks are normally conducted on the Bogong High Plains. Students hike in groups of 12, accompanied by one Bogong Teacher and one Visiting Teacher. Walks can visit a number of historic cattleman's huts and environmentally sensitive sites en route. Students cook for themselves using lightweight stoves under supervision. Bushwalks are preceded by a hike preparation session where students discuss the bushwalk and are given information, training, equipment, and food required for a safe and enjoyable experience.
