# Important Parent Information

The program will contain activities and events which are different from those experienced at school. Qualified and experienced teachers are responsible for the supervision and teaching of all adventure activities and necessary precautions are taken to minimise the possibility of injury.

Parents/guardians should understand however, that all the listed activities do carry risk of physical injury and that accidents can, and do occur. However, Outdoor School has an active and ongoing risk management program whose objective is to provide a safe and effective environment for students and staff.

Activities may include bushwalking, climbing/abseiling, mountain biking, orienteering/rogaining, canoeing, pioneering, high ropes, creek walking, and the sensory trail course. Many of the activities are conducted in remote locations subject to severe weather and other natural hazards. In the event of injury or illness, communications or emergency services may be limited or not available for periods of time. This may result in delays in injured/sick group members accessing more definitive care. It is important that students are appropriately insured for medical treatment as the Outdoor School, being a State Government School of Victoria, does not have any insurance to this effect.

## Possible Programming

### Winter Learning Activities

Our ski programs are aimed at beginners. Students who can ski well may not find our program suitable for them. All skiing is at Falls Creek, and the students are transported to and from the resort each day.

#### Snowshoeing (1/2-1 day)

Snowshoeing is an ideal way for students to move around without requiring the skills needed for skiing. Students may explore off track amongst the Sub-Alpine forest in a quieter manner or move up and down steeper terrain.

#### Cross Country Skiing (2-3 days)

Cross country skiing enables the skier to ski uphill and yet still allow glide on flat or downhill. Students are instructed in the basics of XC skiing which will enable them to explore different aspects and areas of the alpine environment by way of a ski tour.

#### Ski Touring & Snow Camping (2-3 days)

This is conducted on the Bogong High Plains. Students snowshoe or XC ski in groups of up to 12, accompanied by a Bogong Teacher and Visiting Teacher. Groups may visit a hut or environmentally sensitive sites on route. Students cook for themselves using lightweight stoves. Snow-camping is preceded by a preparation session where students are given information, training, equipment, and food required for a safe experience.

#### Downhill Skiing (1 day)

Students experience area from a different perspective while being introduced to basic downhill skiing skills.

#### Evening Sessions

A selection is made from the following sessions: Parks Victoria Ranger talk; Falls Creek Resort Management talk; Ski gear/skills prep; and key knowledge nights directed towards the study design. There may be a night where the visiting staff will be required take an activity session.
